Software Engineer and Full-Stack Developer

Software Engineer and Full-Stack Developer with experience in React, .NET, Node.js, and SQL databases. Skilled in building REST APIs, integrating third-party APIs such as Amazon and eBay Sell APIs, and developing scalable web applications. Experience working in Agile environments using modern development tools including Git, Azure, and CI/CD pipelines. Strong analytical skills with a focus on problem solving, software architecture, and efficient development workflows.

EDUCATION

University of the People	Bachelor of Computer Science • 3.7 Jun 2021 – Jan 2025
--------------------------	---

PROFESSIONAL EXPERIENCE

Amazon	Berlin, Germany
Amazon Associate	October 2024 - Present

- Operate within a high-volume operational environment ensuring accuracy and compliance with company procedures.
- Use internal ticketing systems and communication tools to manage operational issues and task coordination.
- Support team productivity by identifying workflow bottlenecks and reporting technical issues.
- Collaborate with cross-functional teams to resolve operational and technical challenges.

E-volve Tech	Remote (Australia)
Web Developer (Internship)	Apr 2024 - Aug 2024

- Developed and maintained SQL databases using Azure and local environments.
- Built backend services using C# and .NET to support scalable web applications.
- Implemented automated web scraping using Selenium to extract product reviews from eBay.
- Collaborated closely with development teams to identify, document, and resolve defects, improving code quality and application stability throughout the SDLC
- Applied TensorFlow machine learning models to analyze and summarize product reviews.

GoQr	Berlin, Germany
Front End Developer	Jan 2023 - Mar 2024

- Developed modern web applications using React, Redux, and Hooks.
- Built reusable UI components using Styled Components for scalable frontend architecture.
- Collaborated in Agile Scrum teams participating in sprint planning and daily stand-ups.
- Worked with designers using Figma to implement responsive and user-friendly interfaces.
